NOWCULTURE

The Culture. On Your Feet.

FULL SOCIAL MEDIA & WHATSAPP MARKETING PLAN
Instagram · TikTok · Facebook · WhatsApp Business

Prepared: 13 October 2026 | Market: South Africa | Storefront: nowculture (this website)
Catalogue: 160+ sneakers & sneaker combos from SGM Touch — Nike, Jordan, Adidas, New Balance, Lacoste, Puma, Converse, Vans, Diesel, Bapesta, Timberland, Karl Lagerfeld, Replay
Price architecture: singles R1,250–R1,890 · combos R1,599–R3,299 · free delivery · one free gift per order

One-line strategy: Run NowCulture like a social feed, sell like a conversation. Every post is a product, every product is one tap from a WhatsApp checkout — because in South Africa, the sale closes in the chat, not on the website.

North-star goal (first 90 days): 25,000 Instagram followers · 5,000 WhatsApp opt-ins · 600 orders · R900k+ revenue at an average order value of ±R1,550 · cost per order under R120.

How to use this plan: Section 2 sets the brand, Section 3–5 give channel playbooks you can execute today, Section 6 is a ready-to-post 30-day calendar, Section 7 contains copy-paste captions and WhatsApp scripts, Sections 8–10 cover paid ads, budget, KPIs and the weekly operating rhythm.

1. Business snapshot — what we are selling

NowCulture is an Instagram-style sneaker storefront. Instead of a traditional catalogue, customers scroll a feed of posts — and every post is a real, buyable sneaker sourced from SGM Touch (sgmtouch.co.za), with live pricing in Rand, UK sizes 3–9, a working shopping bag and one-tap WhatsApp checkout to +27 61 344 6518.

- **Singles (R1,250–R1,890):** 110+ styles across 13 brands. Hero lines: Nike Shox/Air Max 90/P-6000/Rift, Jordan 1 & 3 & 4, Adidas Samba Jane/SL72/Spezial, New Balance 9060/1000/Abzorb, Lacoste Baseshot/T-Clip, Puma Speedcat/XL, Converse Chuck 70, Timberland Premium, Diesel Ukiyo, Bapesta, Karl, Replay, Vans.
- **Sneaker Combos (R1,599–R3,299) — the signature offer:** two pairs for one price (e.g. Jordan + Air Force R1,899 vs R2,720 separately; Timberland + Timberland R3,299 vs R4,500). Combos are NowCulture's unfair advantage: higher basket size, built-in 'tag your person' virality, and a story competitors can't copy price-for-price.

- **Trust stack:** free nationwide delivery, one free gift per order, verified-customer reviews (Thandi, Lerato, Sipho, Precious), size-swap support on WhatsApp.
- **Audience:** SA sneaker culture, 16–34, mobile-first, price-smart but drip-obsessed — students, young professionals, resellers and gift-buyers (combos = 'one for me, one for bae/friend').

2. Brand system

Element	NowCulture standard
Logo	“NC” monogram in a rounded app-icon tile, Instagram-gradient ring (assets/logo.svg). Always on white or black; never stretch, never recolour the wordmark.
Wordmark	now**culture** — lowercase, gradient on 'culture', '.co.za' in grey. Username everywhere: @nowculture / @nowculture.co.za (secure both).
Voice	Mzansi street, zero cringe. Short lines. Emoji as punctuation, not decoration. Mix English with light vernacular (sharp, danko, ayeye) — never forced.
Colours	Black #0B0B0F, white, Instagram gradient (#feda75 → #fa7e1e → #d62976 → #962fbf → #4f5bd5), WhatsApp green #25D366 only for chat CTAs.
Hashtag bank	#NowCulture #KicksSA #SneakerCulture #MzansiStyle #SGM #SneakerCombos #Take2 + per-post brand tag (#Nike #Jordan1 #Samba #NewBalance9060). Max 8 per caption.

3. Instagram playbook — the shop window

Instagram is NowCulture's home ground: the website already looks and behaves like Instagram (feed, stories, likes, saves, comments), so social content and store are one continuous experience. Link every post to the matching product on the site.

Profile setup (do once, do properly)

- Name field (searchable): 'NowCulture ■ Sneakers & Combos SA'. Bio: 'The Culture. On Your Feet. ■■ / Singles R1,450 · Combos from R1,599 / ■ Free delivery · ■ Free gift per order / ■ Shop the feed'.
- Highlights (use site story covers): New Drops · Combos ■ · Nike · Jordan · Adidas · Reviews ■ · How to Order · Sizes.
- Shop/product tags on every post; pinned posts: (1) 'How to order in 60 seconds', (2) 'Combos explained — 2 pairs, 1 price', (3) 'Reviews wall'.
- Post the website's product photos 1:1 or 4:5, object-fit, clean background — exactly as they appear in the feed so the tap-through feels seamless.

Weekly content engine — 5 pillars

Pillar	Format	Per week	Example
1. The Drop	Feed post + Reel try-on/on-feet	3 posts, 2 Reels	'NIKE SHOX WHITE METALLIC just landed — R1,450'
2. Combo Culture	Carousel: pair A + pair B + saving	2 carousels	'Jordan + Airforce R1,899. Separately R2,720. Danko.'
3. Culture & Community	UGC repost, polls, 'this or that' stories	Daily stories	Customer on-feet pics; 'Samba Jane or Speedcat?' poll
4. Proof	Review screenshot, unboxing, delivery POV	1 post, 2 stories	Thandi's 5★ review as a designed quote card
5. The Plug (offer)	Countdown, payday & student specials	1 post	'Payday Combo Weekend — extra gift on combos, ends Sunday'

- **Cadence:** 1 feed post/day (18:00–20:00 SAST peak), 1 Reel/day (Reels are the discovery engine — on-feet rotation, unboxing ASMR, 'R1,450 vs R1,899 fit check'), 5–10 stories/day.
- **Stories system:** Morning = new drop; Midday = poll/quiz; Afternoon = combo of the day with price flag; Evening = 'WhatsApp us your size' sticker link to wa.me/27613446518.
- **Engagement loop:** reply to every comment in 1 hour; comment meaningfully on 15 culture accounts/day (sneaker pages, stylists, campuses); weekly Live 'Size & Stock Check' (Fridays 19:00).
- **Growth mechanics:** monthly 'Tag & Win a Combo' giveaway (follow + tag 2 friends + share to story = entry, winner announced on Live); collab posts with 2 micro-creators/month (5k–50k followers, product-for-post + affiliate code).

4. TikTok & Facebook playbooks

TikTok — the discovery rocket

- 3 videos/day for the first 30 days, then 1–2/day. Formats that sell sneakers: (1) 7-second on-feet spin with price overlay, (2) 'Two pairs for R1,899?!' combo reveal, (3) unboxing + quality close-ups, (4) 'POV: your NowCulture parcel arrived' delivery joy, (5) duets/stitches of celeb fits matched to a NowCulture pair ('Get the look for R1,450').

- Hook in first 2 seconds, captions burnt in, trending SA sounds (amapiano/gqom instrumentals), post 07:00, 13:00, 19:30. Pin the combo explainer. Bio link → website; every video ends 'WhatsApp link in bio — send your size'.
- Go LIVE twice a week (stock room sessions): show pairs, call out sizes left, drop a live-only combo code.

Facebook — the trust & parents' rand

- Mirror Instagram posts + join 20 SA buy/sell & sneaker groups (post value-first, no spam; combos perform exceptionally with gift-buyers).
- Marketplace listings for the top 20 products with WhatsApp CTA; Events for sale weekends; retargeting via the Meta pixel (Section 8).
- Facebook audience skews 28–45 with cards and salaries — lead with Timberland, Lacoste, Karl and 'gift a combo' angles on payday weekends.

5. WhatsApp marketing playbook — where the sale closes

WhatsApp is NowCulture's till point. The website's checkout already opens a pre-filled WhatsApp order to +27 61 344 6518. Everything below turns that number into a revenue channel — compliantly: only message people who opted in (clicked a wa.me link, ordered, or replied START). Never buy lists; honour STOP instantly. POPIA applies.

Setup checklist (Day 1)

- WhatsApp Business app (or API via a BSP when volume exceeds ±200 chats/day): business profile with logo, hours 08:00–21:00 SAST, catalogue with the top 40 products (photos, price, 'View on website' link).
- Greeting message, away message, and Quick Replies for the 12 scripts in Section 7. Labels: New Lead / Size Confirmed / Paid / Dispatched / Delivered / VIP / Reseller.
- Click-to-WhatsApp everywhere: website buttons, Instagram story link stickers, TikTok bio, Facebook ads, QR code (Section 5.4) on every parcel and flyer.

The 5 money flows

Flow	Trigger	Goal	Message rhythm
1. Order close	Customer taps order/checkout on site	Payment within 30 min	Auto pre-filled order → confirm stock & size → payment link/EFT details → proof of payment → dispatch note. SLA: first human reply < 5 min in hours.
2. Abandoned bag	Bag created, no order in 2 hrs (site prompt: 'Send my bag to WhatsApp')	Recover 15–25%	1 nudge at +2h, 1 at +24h with combo upsell, then stop.
3. Broadcast drops	New stock / sale (opted-in list only)	Sell-through in 48h	Max 2 broadcasts/week, Tue & Fri 18:30. Photo + price + 'Reply with size'. Segment: brand interest & past buyers.
4. Post-purchase	Delivered	Review + repeat order	Delivery check (+1 day) → review ask (+3 days, incentivise with R50 next-order voucher) → 'your combo match' (+14 days).
5. VIP & resellers	3+ orders, or reseller enquiry	Loyalty & bulk	Early access 24h before public drops; reseller price list (SGM reseller groups exist — mirror that energy); birthday voucher.

Broadcast rules that protect the number

Keep broadcasts under 2/week, always lead with value (drop/saving), personalise with first name, include an easy opt-out line ('Reply STOP to opt out'), and warm the number with conversational replies before scaling volume — bulk-blasting a cold number gets it banned. Quality rating (Settings → Business tools) is checked every Monday.

Offline → WhatsApp

- Parcel insert card: 'Scan for R50 off your next pair' QR → wa.me link with pre-filled 'NC50' — turns every delivery into an opt-in.
- Campus & taxi-rank flyers (Joburg, Pretoria, Durban, Cape Town): combo hero photo, price, QR. One flyer design per brand pillar.
- Till/partner barbershops & car washes: table-talkers with QR 'Win a combo monthly'.

8. Paid media plan

Organic builds the culture; paid turns the tap on. All ads click to WhatsApp (highest-converting destination in SA) or to the matching product on the website.

Campaign	Platform	Objective	Creative	Budget share
Combo Hero	Meta (IG/FB)	WhatsApp conversations	Carousel/Reel: 2 pairs, saving badge, 'Send WhatsApp Message'	35%
Drop Retargeting	Meta	Website visitors & engagers → WhatsApp	Exact product they viewed; 'Your size is waiting'	20%
TikTok Spark	TikTok	Views → profile → WhatsApp	Boost top 2 organic Reels/week (creator-whitelisted)	20%

Campaign	Platform	Objective	Creative	Budget share
Catalogue Sales	Meta Advantage+	Purchases	Full catalogue feed from the website product list	15%
Giveaway/Follower	Meta + TikTok	Engagement & opt-ins	Tag-and-win combo creative; wa.me opt-in landing	10%

- Targeting: 18–34, Gauteng/Western Cape/KZN metros first; interests: sneaker & streetwear pages, local culture/music; Advantage+ broad once pixel has 500+ events. Exclude existing buyers from prospecting (they get VIP WhatsApp instead).
- Install the Meta pixel + TikTok pixel on the website; track ViewContent (product open), AddToBag, WhatsAppClick. Judge ads on cost per WhatsApp conversation and cost per order — not likes.
- Creative refresh every 10–14 days; kill any ad set above R180 cost/order after R500 spend; scale winners 20%/day.

9. Budget scenarios (monthly, ZAR)

Line	Starter	Growth (recommended)	Scale
Paid media (Meta + TikTok)	R3,000	R8,000	R20,000
Creators (2–6 micro, product + fees)	R1,500	R4,000	R10,000
Giveaway product (1 combo/month)	+R1,899 stock cost	+R1,899 stock cost	2 combos
Content production (data, props, editing apps)	R600	R1,200	R3,000
Tools (scheduler, WhatsApp BSP when needed, design)	R350	R800	R2,000
Total	±R5,450	±R14,000	±R35,000
Target orders / revenue	90 orders · ±R140k	320 orders · ±R496k	900 orders · ±R1.4m

Targets assume AOV ±R1,550 (combos lift AOV — push combo attach rate to 35%+), conversion of WhatsApp chats to orders at 18–25%, and organic content running daily as specified. Reinvest 15% of revenue into media until cost/order exceeds R150.

10. KPIs & weekly rhythm

Metric	90-day target	Check
Instagram followers / reach	25k followers · 1.5m reach/mo	Mon review
WhatsApp opt-ins & quality rating	5,000 opt-ins · 'High' quality	Mon review
Chat → order conversion	18–25%	Weekly
Cost per order (paid)	< R120	Weekly kill/scale
Combo attach rate	≥ 35% of orders	Weekly
Revenue / AOV	R900k in 90 days · AOV ≥ R1,550	Monthly
Repeat purchase (60-day)	≥ 18%	Monthly

Monday: numbers (30 min) — followers, chats, orders, cost/order, WhatsApp quality rating. **Wednesday:** shoot/edit batch 2. **Friday 19:00:** Live stock check. **Sunday:** batch-shoot + schedule the week. **Monthly:** giveaway draw, creator review, price/stock sync with SGM Touch, refresh this plan's calendar.

Risks & house rules

- Trademark care: brand names are used descriptively to sell the listed products; never imply NowCulture is Nike/Adidas/etc. Keep the site footer disclaimer. Use SGM Touch product imagery as supplied by the catalogue source and re-verify prices/stock weekly — update the website data file when SGM pricing changes.
- WhatsApp bans: opt-in only, ≤2 broadcasts/week, honour STOP, conversational tone. POPIA: store only name/number/order data, never sell lists.
- Stock risk: combos sell fast — confirm size on WhatsApp before payment (built into script /size), and mark sold-out pairs on the site the same day.
- Load-shedding & data costs: keep images compressed (site uses width-optimised CDN images), post downloadable-size flyers, and schedule posts for when the audience is online, not when the office is.

— End of plan. Now go make the feed shoppable. ■■
